**Auditor's Report on Quarterly Financial Results and Year to Date Financial Results of M/s XL Energy Limited pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements Regulations), 2015.**

**To**  
**The Board of Directors of M/s XL Energy Limited**

We have audited the quarterly financial results of XL Energy Limited ('the Company') for the quarter ended 31<sup>st</sup> March, 2018 and the year to date financial results for the period from 1<sup>st</sup> April, 2017 to 31<sup>st</sup> March, 2018 attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements Regulations), 2015. This statement, which is the responsibility of the Company's management and approved by the Board of Directors has been complied from the related Ind AS Financial statements which have been prepared in accordance with the Indian Accounting Standards prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder ("Ind AS") and other accounting principles generally accepted in India. Our responsibility is to express an opinion on the statement based on our audit of such financial statements.

We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts disclosed as financial results. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our qualified opinion.

**Qualified opinion / Adverse observation:**

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 4 to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency that raise substantial doubt about its ability to continue as a going concern and, therefore, it may be unable to realise its assets and discharge its liabilities in the normal course of business. The financial statements (and notes thereto) do not disclose this fact. However, Management's plans in regard to continuing operations are mentioned.

We draw attention to the following matters in the Notes to the financial statements:

The balances appearing under Non-current liabilities, borrowings, trade payables, other current liabilities, loans and advances, CWIP advances, trade receivables are subject to confirmation and / or reconciliation if any. At this point of time, the quantification of its effect on the balance sheet is not ascertained and quantified.

We refer to the notes relating to negative Ind AS adjustments mentioned in the notes to the attached statement relating non-current Investments, Advances and Inventories. These are of retrospective nature and has a material effect on the information in the balance sheet at the beginning of the preceding period.

4. The Statutory Auditors have expressed qualified opinion in their report for the quarter and year ended 31<sup>st</sup> March, 2018 stating that the accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered recurring losses from operations and has a net capital deficiency that raise substantial doubt about its ability to continue as a going concern and, therefore, it may be unable to realise its assets and discharge its liabilities in the normal course of business. With the adoption of Ind AS, the Net Worth of the Company has turned negative. Some of the Lender Bankers who are part of the secured creditors of the Company have assigned their secured debt in the Company in favour of Invent Assets Securitisation and Reconstruction Private Limited, an Asset Reconstruction Company (ARC) and JM Financial Asset Reconstruction Company (ARC). The banks led by Invent ARC has since, initiated steps for the realization of the debt assigned to it by way of auction/sale of identified Secured Assets. In such process, the Company's Cherlapally Unit and Shed No. 30 at Mallapur Unit have been sold away by way of auction by Invent ARC in May 2017.

As informed in the previous financial year that the company is working with an MNC for takeover of the Fabcity Project, which is a Photovoltaic Cell and Module Manufacturing Plant based at Fabcity, Hyderabad, the negotiations with the MNC have come to a final stage. This asset is a critical one required for the continuance of Solar power business and revival of the company. There is a lot of genuine interest shown by the investors to possess and develop solar power manufacturing facility within the country in view of the drive for Green energy and the fallout of the Global need for controlling global warming.

5. Deferred Tax Assets which was created during the Financial Years 2009-10 to 2012-13 aggregating to ₹16,976.68 lakhs has been written off as on the date of transition due to application of Ind AS on the basis of valuation of Assets on its realisability. This Tax Asset is valued at Nil because the company's productive assets have been taken over by the banks / ARC and are in the process of being sold off. The Company's business in terms of production have totally stalled and taking into consideration the balance of period available for utilization of this Deferred tax Asset, there does not seem any possibility of any profitability in the next two years to utilize this tax asset.
6. Impairment to the investment in the foreign subsidiary has been adjusted to the accounts as on the date of transition and year ending 31<sup>st</sup> March, 2017 (refer Note 3(a) of above) complying with Ind AS requirements.

The financial statements of foreign subsidiary and the Indian Joint Venture Company have not been consolidated with the financial statements of the Company for the year ended 31<sup>st</sup> March, 2017.

March, 2018 as the Net worth of both the subsidiary and joint venture have become negative and there are no operations carried out.

7. Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses. An amount of ₹19367.07 Lakhs in CWIP is the amount which is invested in the Fabcity Project. It is a project initiated by the company in 2008-09 for the setup-up of automatic Solar Photovoltaic Cell manufacturing unit along with semi-automatic Module manufacturing unit. All the equipments envisaged under Fabcity project have been imported and the project executed to the extent of about 75%. The module line which is one part of the fabcity project has since been implemented and commercial operations commenced way back in 2012. However, Since the banks have attached the Property and some of the banks have assigned the Assets to the ARC, there is no further investment by the company to complete the Plant.

Adjustments have been made to the CWIP to the extent of ₹ 4696.82 Lakhs due to transition to Ind AS, Advances paid for items of Machinery / Material received at the Project Site but not accounted earlier have been included in the CWIP value as on transition date. Borrowing cost attributable to the Loans taken for the Project included in the years prior to the date of transition but not paid have been reversed since the project is suspended.

8. The company has disposed off or charged off to the profit & loss account most of the stock which was obsolete / dead over the years. All other stock which is usable and has shelf life have been valued on the basis of net realizable value or cost whichever is lower. The stock of PV solar material which is non-recoverable and under litigation prior to the transition date has been written off as on the transition date.
9. Advances were provided to the stepdown subsidiary Saptashva Solar SRL, Italy in the year 2009-10 to an extent of ₹ 345.55 lakhs for expenses and primarily for acquisition of licenses for set up solar power plants in Italy have been written off.
10. Previous period figures have been regrouped/reclassified wherever necessary.
